

The Leader in SIP School Systems

- **911 On-Site Alerting**
- **40,000 School Systems Installed**
- **Safe and Efficient Schools**

Valcom K-12 Sales Engineers will provide presentation to the district, needs assessment and system design.

Daily Communications

- Automated announcements – Live, pre-recorded, text-to-speech
- Morning announcements – Pledge of Allegiance, etc.
- Automated bus loading – parent pick up announcements

Safety & Emergency

- 911 On-Site Alerting – when a phone dials 911, immediate message sent to crisis management so situation can be assessed prior to arrival of first responders which may prevent escalation of certain emergencies.
- Lockdown with classroom notification status display
- Emergency Mass Notification
- Door Entry Intercoms to communicate with visitors before allowing entrance
- Emergency HelpPoints for fast and direct communication to key personnel or security

Schedules, Bells and Clocks

- Manage schedules for every school from anywhere
- Easily change or update schedules from computer, smartphone, tablet – for one school or the entire district
- Simple event scheduling for automated announcements or recurring events
- Synchronized clocks mean all bells, class changes, and school schedules are consistent throughout the district

District Solutions

- Integrated Mass Notification delivers emergency message to entire district with a single click
- District wide schedule changes for weather and emergencies.
- Notification alerts automatically sent when early release is scheduled
