

THE WORLD'S MOST SOPHISTICATED CYBER PROTECTION PROVIDER TO THE PRIVATE SECTOR.

At SpearTip, we can provide your company with cyber counterintelligence tools, tactics, and strategies that far surpass traditional information security. By combining advanced human intelligence profiling with technical expertise, we can deliver solutions unavailable elsewhere in the global marketplace.

CYBER COUNTERINTELLIGENCE GIVES YOU A PROACTIVE ADVANTAGE

As the world's only cyber counterintelligence provider to the private sector, SpearTip allows you to employ advanced human intelligence gathering tools and counterespionage techniques to identify and understand the threats you face, often before an attack happens. By understanding motive and mentality, we can effectively and efficiently mitigate harm to your business and place you in an offensive position, freeing you from traditional reactionary, defensive strategies.

MANAGEMENT-FOCUSED SERVICES THAT EXCEED COMPLIANCE STANDARDS

Compliance standards rarely meet your full legal responsibilities in the event of a breach. Allowing our team to advise your Directors, CEO, CFO, CIO, legal and compliance officers, audit committee and more will not only provide you with maximum protection, we can also help ensure you meet your legal and fiduciary responsibilities in regard to cyber security.
